INTERNATIONAL JOURNAL OF PRODUCTION RESEARCH

CONTENTS

Volume 32, 1994

International Journal of Production Research

Editor in Chief
Professor Roy J. Sury, PhD, CEng
Department of Manufacturing Engineering, Loughborough University of Technology
Leicestershire LE11 3TU, UK

Editor
John E. Middle, MSc, CEng
Department of Manufacturing Engineering
Loughborough University of Technology

Reviews Editor
Geoffrey F. Modlen, PhD, CEng
Department of Manufacturing Engineering
Loughborough University of Technology

Editorial Board

Australia:	Dr G. M. Buxey, Deakin University
Canada:	Professor A. K. S. Jardine, University of Toronto
France:	Professor G. Doumeingts, University of Bordeaux
	Dr J. B. Lasserre, Laboratoire d'Automatique et d'Analyse des Systems, Toulouse
Germany:	Professor Dr-Ing H. Bullinger, Fraunhofer-IAO, Stuttgart
	Professor Dr-Ing H. J. Warnecke, Fraunhofer-IPA, Stuttgart
Hong Kong:	Professor W. S. Lau, Hong Kong Polytechnic
Hungary:	Professor Dr F. J. Lettner, Budapest Müszaki Egyetem, Gépipari Technológiai Tanszék, Budapest IX
India:	Professor N. K. Tewari, Indian Institute of Technology, New Delhi
Israel:	Professor E. Dar-El, Technion-Israel Institute of Technology, Haifa
	Professor D. Sipper, Tel Aviv University
Japan:	Professor K. Hitomi, PE, PEcon, Kyoto University
	Professor R. Muramatsu, Waseda University, Tokyo
	Professor M. Yamamoto, Hosei University, Tokyo
New Zealand:	Professor L. Foulds, Department of Management Systems, University of Waikato
Singapore:	Professor L. Lim, Nanyang Technological University
South Africa:	Professor R. Reinecke, University of Stellenbosch
South Korea:	Dr H. Hwang, Korea Advanced Institute of Science and Technology
Sweden:	Professor S. Axsäter, Lund University
United Kingdom:	Professor C. Andrew, University of Cambridge
	Professor C. B. Besant, Imperial College of Science and Technology, London
	Professor A. S. Carrie, University of Strathclyde
	Professor J. Parnaby, Lucas Industries, Solihull
USA:	Professor G. Boothroyd, University of Rhode Island, Kingston, RI
	Professor N. Gaither, Texas A&M University, College Station, TX
	Dr S. B. Gershwin, Massachusetts Institute of Technology, Cambridge, MA
	Professor J. N. D. Gupta, Ball State University, IN
	Professor K. Knott, Pennsylvania State University, PA
	Professor A. Kusiak, University of Iowa, IA
	Professor W. L. Maxwell, Cornell University, NY
	Professor C. Moodie, Purdue University, West Lafayette, IN
	Professor N. Singh, Wayne State University, Detroit, MN
Yugoslavia:	Professor D. Zelenović, University of Novi Sad, Serbia
Founding Editor:	Professor N. A. Dudley, Emeritus Professor, University of Birmingham, UK

Subscription information

International Journal of Production Research (ISSN 0020–7543) is published monthly by Taylor & Francis Ltd, 4 John Street, London WC1N 2ET, UK. Tel: +44 (0)71 405 2237; Fax: +44 (0)71 831 2035.

Annual subscription 1995 £712, US $1175. Personal subscription 1994 to members of the Manufacturing Division of the Institution of Electrical Engineers: £102, US $203. Personal subscriptions are available to home addresses only and must be paid by personal cheque or credit card.

Second class postage paid at Jamaica, NY 11431, USA. US Postmasters: send address changes to *International Journal of Production Research*, Publications Expediting Inc., 200 Meacham Avenue, Elmont, NY 11003, USA. Air freight and mailing in the USA by Publications Expediting Inc.

Printed by Burgess Science Press, Rankine Road, Basingstoke RG24 8PR, UK. The paper used in this publication is 'acid free' and conforms to the American National Standards Institute requirements in this respect.

Dollar rates apply to subscribers in all countries except the UK and the Republic of Ireland where the pound sterling price applies. All subscriptions are payable in advance and all rates include postage. Journals are sent by air to the USA, Canada, Mexico, India, Japan and Australasia. Subscriptions are entered on an annual basis, i.e. January to December. Payment may be made by sterling cheque, dollar cheque, international money order, National Giro, or credit card (Amex, Visa, Mastercard/Access).

Orders originating in the following territories should be sent direct to the local distributors: **Australia:** R. Hill & Son Ltd, Suite 2, 119 Gardenvale Road, Gardenvale, Victoria. 3185. **New Zealand:** R. Hill & Son Ltd, Private Bag, Newmarket, Auckland 1. **India:** Universal Subscription Agency Pvt. Ltd, 101–102 Community Centre, Malviya Nagar Extn, Post Bag No. 8, Saket, New Delhi 110017. **Japan:** Kinokuniya Co. Ltd, Journal Department, PO Box 55, Chitose, Tokyo 156. **USA, Canada and Mexico:** Taylor & Francis Inc., 1900 Frost Road, Suite 101, Bristol, PA 19007, USA. **UK and all other territories:** Taylor & Francis Ltd, Rankine Road, Basingstoke RG24 8PR, UK.

International Journal of Production Research

Volume 32, 1994—CONTENTS

No. 1 January 1994

Contents

A modular framework for the design of material flow systems. B. REMBOLD and J. M. A. TANCHOCO 1

Optimal allocation of process tolerances and stock removals. G. R. TANG, R. KUNG and J. Y. CHEN 23

An algorithm for the determination of the optimum target values for two machines in series with quality sampling plans. K. S. AL-SULTAN ... 37

Manufacturing cell formation under random product demand. G. HARHALAKIS, G. IOANNOU, I. MINIS and R. NAGI. 47

Error recovery in intelligent robotic workcells. R. D. BORCHELT and S. ALPTEKIN 65

Control charts based on grouped observations. S. H. STEINER, P. L. GEYER and G. O. WESOLOWSKY 75

Testing minimum performance levels for kanban-controlled lines. B. J. BERKLEY 93

Applying spatial representation techniques to the container packing problem. B. K. A. NGOI, M. L. TAY and E. S. CHUA 111

A heuristic for designing cellular manufacturing facilities. S. S. HERAGU and Y. P. GUPTA 125

A knowledge base to assist a heuristic search approach to facility layout. B. SIRINAOVAKUL and P. THAJCHAYAPONG 141

A decomposition scheduling method for operating flexible manufacturing systems. N. HIRABAYASHI, H. NAGASAWA and N. NISHIYAMA 161

Performance analysis of a LIM-based high-speed tool delivery system for machining. H. S. HAHN and J. L. SANDERS 179

Optimal sequencing of production and inspection operations. M. KASPI and T. RAZ 209

Discussion. A note on 'On TESSA'. L. A. AL-HAKIM 223

A reply to 'A note on "ON TESSA"'. S. G. BOSWELL 227

Discussion. A note on 'Similarity of a new greedy heuristic for facility layout by graph theory to an existing approach'. M. M. D. HASSAN 231

A reply to 'A note on "Similarity of a new greedy heuristic for facility layout by graph theory to an existing approach"'. S. G. BOSWELL 235

Book reviews 241

No. 2 February 1994

Selecting and sequencing design tools in developing material flow system models. B. REMBOLD and J. M. A. TANCHOCO 243

An evaluation of the Taguchi's method for on-line quality control. A. PESCH 263

Tabu search-based heuristics for cellular manufacturing systems in the presence of alternative process plans. R. LOGENDRAN, P. RAMAKRISHNA and C. SRISKANDARAJAH 273

Economic theory, cost accounting and theory of constraints: an examination of relationships and problems. M. S. SPENCER 299

X-bar and *R* control chart interpretation using neural computing. A. E. SMITH 309

A simulation-based scheduler for flexible flowlines C. BENGÜ 321

Volumetric error analysis of a multi-axis machine tool machining a sculptured surface workpiece. J. H. CHO, M. W. CHO and K. KIM 345

Scheduling manufacturing systems with work-in-process inventory control: multiple-part-type systems. S. X. BAI and S. B. GERSHWIN 365

Design of line-type cellular manufacturing systems for minimum operating and material-handling costs. T. WARREN LIAO 387

A process audit plan. WE-MIN CHOW 399

A load-routeing problem in a tandem-configuration automated guided-vehicle system. J. T. LIN, C. C. K. CHANG and WEN-CHUNG LIU 411

Spine layout design. A. LANGEVIN, B. MONTREUIL and D. RIOPEL 429

Linear-programming-based productivity and business strategy analyses in the factory automation era. YOUNG K. SON 443

Machine–component grouping in cellular manufacturing by multidimensional scaling. S. K. MUKHOPADHYAY, P. SARKAR and R. P. PANDA 457

Book reviews 479

Announcements 481

J. D. Scaife Award 1992 482

No. 3 March 1994

The bowl phenomenon in unpaced lines. R. PIKE and G. E. MARTIN ... 483

An algorithm for hoist scheduling problems. Y. YIH 501

A heuristic model for simultaneous storage space allocation and block layout planning. C. J. MALMBORG 517

Simultaneous acceptance control charts for products with multiple correlation characteristics. S. H. STEINER and G. O. WESOLOWSKY 531

A five-step object-orientated architecture for process planning. G. A. YUT and T. C. CHANG 545

A 'fuzzy' heuristic for the quadratic assignment formulation to the facility layout problem. A. D. RAOOT and A. RAKSHIT 563

Multi-item, single-machine scheduling problem with stochastic demands: a comparison of heuristics. A. GASCON, R. C. LEACHMAN and P. LEFRANÇOIS 583

CMM feature accessibility and path generation. C. P. LIM and C. H. MENQ 597

Evaluating the impact of frequent engineering changes on MRP system performance. C. J. HO 619

Computer-aided process planning for assembly: generation of assembly operations sequence. D. BEN-ARIEH and B. KRAMER 643

An extended bill of material model for selecting production alternatives in a multi-routeing environment. K. KOGAN 657

Assembly system design principles and tradeoffs. C. F. DAGANZO and D. E. BLUMENFELD 669

Two-phase method for designing flexible manufacturing systems. J. DEKLEVA and M. GABERC 683

A constraint-based perspective in resource constrained project scheduling. G. ULUSOY and L. ÖZDAMAR 693

Flexible process plans: their value in flexible automation systems. G. K. HUTCHINSON and K. A. PFLUGHOEFT 707

Control chart pattern recognition using learning vector quantization networks. D. T. PHAM and E. OZTEMEL 721

Book reviews 731

No. 4 April 1994

Computer-aided fixture design: a review. S. K. HARGROVE and A. KUSIAK 733

DLSP for two-stage multi-item batch production. W. BRÜGGEMANN and H. JAHNKE 755

Analytical models to study the impact of error detection and recovery on the performance of a robotic assembly cell. R. K. GUJAR and J. L. SANDERS 769

Metamodels in manufacturing: a review. B. YU and K. POPPLEWELL ... 787

Manufacturing strategy, performance indicators and improvement programmes. L. GELDERS, P. MANNAERTS and J. MAES 797

A comparison of job shop dispatching rules using a total cost criterion. K. K. YANG and C. C. SUM 807

Management of design activities in a concurrent engineering environment. B. POURBABAI and M. PECHT 821

Predicting total machining performance in finish turning using integrated fuzzy-set models of the machinability parameters. X. D. FANG and I. S. JAWAHIR 833

An approach to production planning and scheduling in cyclically scheduled manufacturing systems. A. G. LOERCH and J. A. MUCKSTADT 851

An economic design of $\bar{x}$ control chart using quadratic loss function. E. A. ELSAYED and A. CHEN 873

Generic kanban systems for dynamic environments. T. M. CHANG and Y. YIH 889

Dispatching rules in scheduling: a fuzzy approach. B. GRABOT and L. GENESTE 903

Performance evaluation of tandem and conventional AGV systems using generalized stochastic Petri nets. H.-P. B. WANG and S. A. HAFEEZ ... 917

The pull production system: modelling and characteristics. S. SIHA ... 933

An integrated decision support system for FMS: using intelligent simulation. N. K. BAID and N. N. NAGARUR 951

A dynamic job shop scheduling framework: a backward approach. D. SUN and L. LIN 967

No. 5 May 1994

Optimal design of production lines. G. È. MARTIN 989

Effects of WIP inventories on integrated production lot sizing in cellular manufacturing. JAE-DONG HONG 1001

Cardes—carousel design. J. TREVINO, F. LIAO and S. CHOPRA 1013

A due date-based approach to part type selection in flexible manufacturing systems. Y.-D. KIM and C. A. YANO 1027

Evaluating variance control, order review/release and dispatching: a regression analysis. S. A. MELNYK, K. C. TAN, D. R. DENZLER and L. FREDENDALL 1045

Recognizing multiple interpretations in $2\frac{1}{2}$D machining of pockets. Y.-J. TSENG and S. B. JOSHI 1063

An evaluation of worker assignment policies in dual resource-constrained job shops with heterogeneous resources and worker transfer delays. M. K. MALHOTRA and H. V. KHER 1087

Workstation planning for redundant manipulators. M. W. M. G. DISSANAYAKE and J. A. GAL 1105

Finite capacity flow in a multi-stage/multi-product environment. H. HILLION and J.-M. PROTH 1119

An empirical investigation of the two-moment approximation for production lines. S. G. POWELL and D. F. PYKE 1137

Physical simulation of a three dimensional pallatizing heuristic. R. D. TSAI, E. M. MALSTROM and W. KUO 1159

Production planning for a multi-item, single-stage kanban system. M. G. MITWASI and R. G. ASKIN 1173

Cell formation: the need for an integrated solution of the subproblems. B. ARVINDH and S. A. IRANI 1197

Sequencing jobs on an automobile assembly line: objectives and procedures. A. BOLAT 1219

Book reviews 1237

Announcements 1241

No. 6 June 1994

Rolling horizon algorithms for a single-machine dynamic scheduling problem with sequence-dependent setup times. I. M. OVACIK and R. UZSOY ... 1243

A fuzzy approach to process plan selection. H.-C. ZHANG and S. H. HUANG 1265

Multiperiod tool and production assignment in flexible manufacturing systems. M. S. SODHI, R. G. ASKIN and S. SEN 1281

Tool wear estimation by group method of data handling in turning. H. V. RAVINDRA, M. RAGHUNANDAN, Y. G. SRINIVASA and R. KRISHNAMURTHY 1295

A modelling approach to design of integrated facilities. S. DOWLATSHAHI... 1313

A PC-based production scheduling system using a mixed integer programming approach. B. KAYIS and G. DY CHENG BENG 1331

Automatic process plan generation in an operative process planning system. J. OPAS, F. KANERVA and M. MÄNTYLÄ 1347

A decision model for corrective maintenance management. C. SHEU and L. J. KRAJEWSKI 1365

Models for performance evaluation of flexibility in manufacturing systems. S. BENJAAFAR 1383

Estimating the throughput of a cyclic assembly system. I. DUENYAS ... 1403

A quantification of the economic value of flexible capacity. K. LAENGLE, P. M. GRIFFIN and S. O. GRIFFIN 1421

Production planning models for a central factory with multiple satellite factories. CHOU-FANG CHEN, P. J. EGBELU and CHUNG-TE WU 1431

A game-theoretic control approach for job shops in the presence of disruptions. V. J. LEON, S. D. WU and R. H. STORER 1451

Application of entropy functions in on-line vibration classification for cylindrical plunge grinding. J. C. FU, K. MORI and M. YOKOMICHI 1477

Discussion. A note on 'Use of cost and accuracy measures in forecasting method selection: a physical distribution example'. E. A. SILVER ... 1489

A reply to 'A note on "Use of cost and accuracy measures in forecasting method selection: a physical distribution example"' revisited. B. E. FLORES, D. L. OLSON and S. L. PEARCE 1491

Book reviews 1499

No. 7 July 1994

Impact of sequence-dependent setup time on job shop scheduling performance. S. C. KIM and P. M. BOBROWSKI 1503

Reference architecture for open and integrated automatic optical inspection systems. J. B. ZHANG and R. H. WESTON 1521

Automatic computation and drawing of facility layouts with logical aisle structures. S. J. TRETHEWAY and B. L. FOOTE 1545

Profit rate maximization in multipass turning with constraints: a geometric programming approach. R. GUPTA, J. L. BATRA and G. K. LAL 1557

Analysis and modelling of a production line in a corrugated box factory. M. SAVSAR and C. COGUN 1571

Managing risk in development and initial production. T. M. WILLIAMS ... 1591

A multiple objective approach for constructing attribute-sampling plans for non-serial assembly items. J. R. BAKER, E. R. CLAYTON, L. A. MATHESON and T. R. RAKES 1599

Scheduling a single batch processing machine with non-identical job sizes. R. UZSOY 1615

Optimal operation of manufacturing systems with controlled work-in-process levels. R. G. ASKIN and A. H. KRISHT 1637

Machining fixture design and analysis software. Q. A. SAYEED and E. C. DE METER 1655

Concurrent engineering in a high variety label printing environment. N. SINGH and M. H. WANG 1675

Performance of Fuzzy ART neural network for group technology cell formation. N. C. SURESH and S. KAPARTHI 1693

Force prediction models and CAD/CAM software for helical tooth milling processes. III. End-milling and slotting operations. E. J. A. ARMAREGO and N. P. DESHPANDE 1715

Flexibility of production ordering systems. K. TAKAHASHI, S. HIRAKI and M. SOSHIRODA 1739

Book reviews 1753

Announcement 1757

Erratum 1757

No. 8 August 1994

An expert neural network system for dynamic job shop scheduling. S. K. SIM, K. T. YEO and W. H. LEE 1759

Performability of automated manufacturing systems with centralized material handling. R. RAM and N. VISWANADHAM 1775

Stochastic assembly line balancing using simulated annealing. G. SURESH and S. SAHU 1801

Automated print inspection for cylindrical surfaces. E. W. FANT and K. YEEN FOO 1811

Petri net extensions for modelling and validating manufacturing systems. BONG WAN CHOI, WAY KUO and J. K. JACKMAN 1819

An integrated framework for protective packaging design and manufacture. S. W. LYE and H. Y. YEONG 1837

Scheduling disassembly. S. M. GUPTA and K. N. TALEB 1857

Process flow industry—scheduling and control using theory of constraints. E. SCHRAGENHEIM, J. COX and B. RONEN 1867

A methodology for analysis of assembly operations' difficulty. D. BEN-ARIEH 1879

A complete inspection plan for dependent multicharacteristic critical components. S. O. DUFFUAA and I. A. NADEEM 1897

Principal component analysis for evaluating the feasibility of cellular manufacturing without initial machine-part matrix clustering. B. ARVINDH and S. A. IRANI 1909

Computer-aided tolerance charting. B. K. A. NGOI and S. L. FANG 1939

Visual interactive simulation and artificial intelligence in design of flexible manufacturing systems. R. VUJOSEVIC 1955

The stochastic flowshop makespan. Part I. Some general results for the buffered case. D. MIDDLETON 1973

Determining the number of kanbans and lotsizes in a generic kanban system: a simulated annealing approach. T.-M. CHANG and Y. YIH 1991

No. 9 September 1994

Control policies for two-stage, pull-type production/inventory systems with constrained average cost criterion. M. B. GÜRSOY, T. ALTIOK and H. DANHONG 2005

A hybrid modelling approach to the design of an AGV-based material handling system for an FMS. B. MAHADEVAN and T. T. NARENDRAN 2015

Minimax centre estimation for inspection of spherical parts. R. B. GRINDE and J. A. VENTURA 2031

A two-phase procedure for duplicating bottleneck machines in a linear layout, cellular manufacturing system. B. R. SARKER and J. YU 2049

The stochastic flowshop makespan. Part II. Some general results for the unbuffered case. D. MIDDLETON 2067

Modular fixture design: a designer's assistance. B. K. A. NGOI and G. L. LEOW 2083

Machine-cell formation through neural network models. V. VENUGOPAL and T. T. NARENDREN 2105

A strategic decision model for the selection of advanced technology. C.-H. KUEI, C. LIN, J. AHETO and C. N. MADU 2117

Reducing flow between manufacturing cells: a sensitivity analysis. O. GARZA and T. L. SMUNT 2131

A clustering algorithm for machine cell formation in group technology using minimum spanning trees. G. SRINIVASAN 2149

Assembly line balancing with buffers by multiple criteria optimization. B. B. MALAKOOTI 2159

The economically-based EWMA control chart. C. HO and K. E. CASE ... 2179

Using unsupervised learning technologies to induce scheduling knowledge for FMSs. D.-C. LI and I.-S. SHE 2187

Buffer allocation in unbalanced three-station serial lines. S. G. POWELL ... 2201

Forming cells to eliminate vehicle interference and system locking in an AGVS. M. FARAJI and R. BATTA 2219

A note on 'Effect of production cost on shelf life'. S. K. GOYAL 2243

Discussion. A reply to 'A note on "Effect of production cost on shelf life"'. B. R. SARKER 2247

Erratum 2249

No. 10 October 1994

Moderating influences of organizational attitude and compatibility on implementation success from computer-integrated manufacturing technology. K. RAMAMURTHY 2251

A heuristic workload-based model to form cells by minimizing intercellular movements. A. G. DEL VALLE, S. BALAREZO and J. TETERO 2275

Exact economic design of $\bar{X}$ charts for general time in-control distributions. J. SURTIHADI and M. RAGHAVACHARI 2287

On using abstract models for analysis of flexible manufacturing systems. V. P. KOCHIKAR and T. T. NARENDRAN 2303

SMT production scheduling: a generalized transportation approach. P. JI, Y. S. WONG, H. T. LOH and L. C. LEE 2323

A modified analytical model for optimization of NC-tool cutting path. R. H. SUN and Y. C. TSAI 2335

A shop structure generator for cell formation research. Y.-T. PARK and U. WEMMERLÖV 2345

A structured approach to deadlock detection, avoidance and resolution in flexible manufacturing systems. T. K. KUMARAN, W. CHANG, H. CHO and R. A. WYSK 2361

A systematic approach for the three-dimensional palletization problem. G. ABDOU and M. YANG... 2381

A comparative study of cell formation in cellular manufacturing systems. L. KANDİLLER 2395

Sequencing mixed-model assembly lines to level parts usage and minimize line length. J. F. BARD, A. SHTUB and S. B. JOSHI 2431

Multistage production systems with random yield: heuristics and optimality. D. W. PENTICO 2455

Managing a two-bottleneck job shop with a two-machine flow shop algorithm. S. B. BAHOUTH and B. L. FOOTE 2463

Component part commonality and process flexibility effects on manufacturing performance. H. TSUBONE, H. MATSUURA and S. SATOH 2479

No. 11 November 1994

Shop floor control and tool loading policies in flexible manufacturing systems. S. R. HEDIN, M. K. MALHOTRA and P. R. PHILIPOOM 2495

A computer-aided framework for the selection and sequencing of orientating devices for the vibratory bowl feeder. L. E. N. LIM, B. K. A. NGOI, S. S. G. LEE, S. W. LYE and P. S. TAN 2513

An attribute design method: a new approach to flexible welding machine design. K. DUNK, C. LEE and P. MARTIN 2525

A heuristic for scheduling in flowshop and flowline-based manufacturing cell with multi-criteria. C. RAJENDRAN 2541

Machine layout problem in modern manufacturing facilities. M. M. D. HASSAN 2559

Material flow system model evaluation and improvement. B. REMBOLD and J. M. A. TANCHOCO 2585

Automatic digitization of free-form curve by coordinate measuring machines. Y. D. CHEN, X. J. TANG, J. NI and S. M. WU 2603

A response surface approach to developing composite dispatching rules for flexible manufacturing systems. S. E. RAMASWAMY and S. B. JOSHI ... 2613

Scheduling duplicate serial stations in transfer lines. R. R. İNMAN and M. LEON 2631

Approximate analysis of a conveyor system. T. ATMACA 2645

An optimal multi-machine replacement policy in a serially dependent production system. J. SARKIS and J. SEMPLE 2657

Socio-technical organization of cell manufacturing and production islands in the metal manufacturing industry in Germany and the USA. N. HARVEY ... 2669

Light scattering for the measurement of surface finish: a review. B. J. GRIFFITHS, R. H. MIDDLETON and B. A. WILKIE 2683

Heuristic, storage space minimization methods for facility layouts served by looped AGV systems. C. J. MALMBORG 2695

A general search algorithm for cell formation in group technology. H.-G. CHEN and H. H. GUERRERO 2711

A note on 'Single-machine scheduling for minimizing total cost with identical, asymmetrical earliness and tardiness penalties'. M. X. WENG and J. A. VENTURA 2725
Book review 2731
Announcement 2733

No. 12 December 1994

An algorithm for routeing control of a tandem automated guided vehicle system. J. T. LIN and P.-K. DGEN 2735
Capital investment appraisal of advanced manufacturing technology. F. LEFLEY 2751
Impact of family-based scheduling on transfer batches in a job shop manufacturing cell. V. R. KANNAN and S. B. LYMAN 2777
Multiproduct economic lot size models with investment costs for setup reduction and quality improvement: review and extensions. I. MOON 2795
Parameter and tolerance design in the engineering modelling stage. K. YANG, W. XIE and Y. HE 2803
Machining time estimation for magnetic abrasive processes. G. Z. KREMEN, E. A. ELSAYED and J. L. RIBEIRO 2817
Alternative order release mechanisms: a comparison by simulation. L. C. HENDRY and S. K. WONG 2827
Cross-training effectiveness and profitability. A. C. EBELING and C.-Y. LEE 2843
A survey of cutter path construction techniques for milling machines. S. MARSHALL and J. G. GRIFFITHS 2861
Coordinated replenishment systems with discount opportunities. F. A. VAN DER DUYN SCHOUTEN, M. J. G. VAN EIJS and R. M. J. HEUTS ... 2879
Performance evaluation of unbalanced serial production lines. C.-M. LIU and C.-L. LIN 2897
Implementation of a demand-pull system in a job shop environment. C.-Y. LEE, C.-S. LIN, R. UZSOY and C.-C. WONG 2915
Announcements 2929
Referees 1993/4 2933
Index of Authors (with titles) 2945
